Syllabus

OGenPlus

Plug and Play

OGenPlus streamlines music creation for your students by allowing them to effortlessly craft music elements using the O-Generator Wheel or Music Grid and seamlessly arrange, record, and export compositions with the Clip Arranger.

The included lessons and project starters provide the flexibility and variety needed for an active, engaged music class.

The course includes 20 sequenced lessons and over 50 project starters. For students with prior music creation experience, the Getting Started project unit offers an OGenPlus jump-start in one lesson, with additional learning over the creation of four projects.

OGenPlus Lessons: Creating Music

1. Rhythm & the Drum Kit
